Creep Feeding Tips and info:

- **Give the calves 30-45 days to be trained to use a creep feeder (Start in May/June).**
- **40 Calves maximum to each 8' double sided creep feeder.**
- **Place feeders close to the herd's loafing area (water and/or shade).**
- **Keep creep feed intake at or below 1% of Body Weight to prevent fleshy calves.**
- **Weigh calves before starting creep to measure performance.**
